What Successful People do to be Successful

We would all agree that success in life is something everyone desires. We all want to make life work, and find fulfillment in the process. What area do you want to succeed in? Is there something that you haven't accomplished yet? Are you feeling stuck in some area - your career, your finances, your relational life, or something else? Whatever your goal is, it is possible for you to achieve it - if you understand God's definition of success and then follow His specific path to get there. Dr. Townsend will take you through the steps God has given us. You can improve your ability to really succeed in every area of life!

Small group discussion questions:

1) What areas have you neglected or need to work on?

2) Clarify what it is that you want.

3) List three people in your life that you can share the dream with.
