Finding God's Will and Your Identity

People of faith long to know God's will for their lives; many people wrestle with this question for a long time without finding an answer. Part of the difficulty lies in us not knowing who we are and being clear on our identity. We will never experience true fulfillment until we have clarity on who we are, and what God's will is for our lives. The Bible gives us a clear formula to find God's will. Join Dr. Cloud as he helps you solve this mystery, and connect your true identity to God's will for you.

Small group discussion questions:

1) In what ways have you experienced God's mercy?

2) What do you need to surrender to God? Have you asked God to give you clarity on His path for you?

3) What steps will you take to begin to work this out? What is your plan?
