You will leave with a plan for continued personal and professional growth!

Process Groups

The Ultimate Leadership workshop combines practical teachings with intensive small group experiences designed to help you:

- **Identify obstacles or patterns of behavior that have kept you from succeeding**
- **Go past information-based learning and experience real transformation**
- **Deepen your understanding of the personal growth process**
- **Learn a model of growth based on leadership and psychological research**
- **Practice healthy confrontation with grace and truth**

You will take part in two or three process groups daily. These sessions will help you integrate new information with both new and past experience. Professional facilitators guide the sessions.
